

ThinkPad T14s Gen 3

Thinner, lighter, and redesigned with a 16:10 aspect ratio display and up to 85% screen-to-body ratio for a fuller view, the refined ThinkPad T14s Gen 3 combines mobility and performance for ultimate productivity and sustainability in today's hybrid work environment.

Built with AMD Ryzen™ 6000 PRO series processors with 19W Thermal Design Power, plus integrated AMD Radeon™ 600M graphics, and new, faster LPDDR5 memory, ThinkPad T14s Gen 3 speeds through any task with efficiency and confidence. Users can expect a better audio/visual experience, too, with display options up to 2.8K OLED with add on film touch, FHD RGB camera option, Dolby® Voice technology, and Low Blue Light technology to alleviate eye fatigue.

ThinkPad T14s Gen 3 includes industry-leading ThinkPad and ThinkShield security features, like voice recognition, Power-On Touch Fingerprint Reader, privacy shutter, and human presence detection. These combine with AMD PRO Security, including AMD Memory Guard, for optimized protection against threats as well as Microsoft Pluton technology built directly into the processor, hardening new Windows 11 PCs with continuous, up-to-date security.

Lenovo

ThinkPad T14s Gen 3

PORTABLE PERFORMANCE

Even at less than 16.6 mm thin and starting at less than 2.75 pounds weight, ThinkPad T14s Gen 3 packs a lot of performance into a slim form factor thanks to AMD Ryzen™ 6000 PRO series processors and up to 32GB LPDDR5 Dual Channel soldered down memory. Ample Gen 4 performance PCIe SSD storage, plus integrated AMD Radeon™ 600M graphics further drive the enterprise-level performance that today's users demand.

ENHANCED PRODUCTIVITY

In addition to a new WQXGA 2.8k OLED with Touch option, all the displays for ThinkPad T14s Gen 3 have been redesigned with a 16:10 aspect ratio and expanded vertical screen real estate for improved productivity. An optional FHD camera with wider scope, impressive Dolby® Audio™ Speaker System, and new Dolby® Voice AI noise suppression technology enable ThinkPad T14s Gen 3 to deliver an even more immersive videoconferencing experience.

EVERYWHERE CONNECTIVITY

Along with an expansive array of ports, ThinkPad T14s Gen 3 also gives users multiple options for lightning-fast Gigabit Internet connectivity on-the-go thanks to new Wi-Fi 6E wireless and 5G sub-6 CAT20 and CAT16 WWAN capabilities.

SMARTER SECURITY

This secured-core PC features ThinkShield security solutions, like a built-in webcam privacy shutter and Power-On Touch Fingerprint Reader, plus options like human presence detection and PrivacyGuard display. It has Microsoft Pluton technology built into the processor, which offers continuous protection for user identity, data, and apps. All of this is further complemented by chip-level AMD PRO Security, which offers a modern, multi-layered approach that helps protect sensitive data from today's sophisticated attacks, avoid downtime, and reduce resource drain.

¹Product packaging shall contain, on average, a minimum total percentage of 90% by weight of any combination of the following materials: Recycled content, biobased plastic, non-wood biobased fiber material, and/or sustainably forested material.

sustainability

ThinkPad T14s Gen 3 uses 90% recycled and/or sustainable packaging¹, as well as PCC recycled material for the battery brackets, speaker enclosures, and AC adaptors. All Lenovo devices are manufactured using low-temperature solder for reduced emissions. And by 2025, Lenovo aims to obtain 90% of electricity for global operations from renewable sources and remove one million tons of greenhouse gas emissions from the supply chain.

power

ThinkPad T14s Gen 3 is truly designed for high performance with a sub-3-pound form factor that still boasts a 57 Whr battery.

wellness

Many of the new 16:10 aspect display options for ThinkPad T14s Gen 3 also feature Eyesafe[®] low blue light technology to help reduce eye fatigue.

ThinkPad T14s Gen 3

Lenovo offers a comprehensive portfolio of end-to-end services to support and protect your investment—so you can focus on the job at hand, not IT.

Services

PREMIER SUPPORT

Provides direct access to skilled and experienced Lenovo technicians offering comprehensive hardware and software support. Gives you a consistent point of contact within Lenovo to ensure that your case resolution is professionally managed from start to finish.

BULK PACKAGING SERVICE

Bulk Packaging is an environmental packaging solution designed for multiple product types. Each package contains multiples of one like-type product to minimize the amount of material used without jeopardizing the integrity of packaging necessary to protect product in shipping process.

CO₂ OFFSET SERVICE

As an option with the hardware purchase, the Lenovo CO₂ Offset Service gives customers a simple and transparent way to give back to the environment by helping them offset the carbon emissions associated with their Lenovo PC. With it, Lenovo has calculated the carbon emissions of its PCs across their lifecycle, from manufacture and shipment, all the way through usage and disposal. Carbon offset credits are later purchased based on the calculated emissions of the specific device, and Lenovo's carbon offset partner contributes them to one of several United Nations Climate Action projects.

Accessories

ThinkPad USB-C Dock Gen 2

Broadly compatible, this dock expands data, power, and video, providing one connection with no limitations.
