

Lenovo ThinkPad

Thin, light, and incredibly nimble, the Lenovo ThinkPad L13 2-in-1 Gen 6 is the must-have compact multimode for today's ambitious movers and shakers. Advanced by the AMD Ryzen™ 200 Series processors, this go-everywhere device streamlines the basics of everyday processing and versatility to harness the power of introductory AI experiences. With the ability to transition from laptop to tablet to presentation mode, you'll easily tackle every task that comes your way. The enhanced brighter 400nits display is bolder than ever, thanks to the Communication Bar which allows for a massive 84.7% screen-to-body ratio.

Whether you're onsite with a client, at a café, or anywhere in between, you'll never press pause on productivity with the stable, fast MediaTek Wi-Fi 7 and 4G LTE connectivity plus all-day battery life. Count on everywhere protection, too, with Lenovo ThinkShield security features that safeguard your device and data. You'll also appreciate the intentional design, including a boost in end-to-end sustainability, industry-leading keyboard accessibility features, and nine customer replaceable (CRU) components. Flexible, portable, and responsible, the Lenovo ThinkPad L13 2-in-1 Gen 6 is all-around impressive.

Lenovo ThinkPad L13 2-in-1 Gen 6

INSPIRED EXPERIENCE

Adaptability is vital in today's marketplace—you've got to flex to meet whatever challenges come your way. That's why the sleek new Lenovo ThinkPad L13 2-in-1 Gen 6 is the ideal multimode for the modern hybrid workforce, letting you to smoothly move from laptop to tablet to presentation mode. The unique Communication Bar, which allows for easy opening and houses the camera, delivers thinner bezels and an 84.7% screen-to-body ratio. Everywhere collaboration is clear and immersive, thanks to the bright 13.3" 400nits display, the 5MP+IR camera, Dolby® Audio, and AI-accelerated meeting features. Need to add a display (or two) and peripherals? The thoughtful port design, up to 1TB 2242 SSD storage and 64GB LPDDR5x memory, enables easy expandability.

INTELLIGENT, PRODUCTIVE MOBILITY

Designed with innovative technologies to bring AI experiences closer to you, the AMD Ryzen™ 200 Series processor advancing the new Lenovo ThinkPad L13 2-in-1 Gen 6 enhances the hybrid and remote workday by delivering trusted performance, state-of-the-art battery optimization, and immersive experiences. Newly designed with a smaller footprint and weighing just 1.30 kg (2.87 lbs), this multimode elevates productivity during your work-from-everywhere days. In addition to introductory on-device AI assistance, the convenient hardware Copilot key lets you instantly access Microsoft Copilot to boost efficiency. No matter where the workday takes you, you'll enjoy uninterrupted productivity with long battery life from the CRU-able 54Wh battery and stable wireless connectivity. Because drops and spills are just part of the go-get-it life, this 2-in-1 is as durable as it is portable, meeting MIL-STD-810H certification plus meeting 12 standards, 26 procedures, and 200+ quality checks.

RESPONSIBLE DESIGN

Lenovo is paving the way for broad accessibility, integrating unique features like tactile markers for the visually impaired and an LED bump to indicate the side power port location. Boasting nine customer replaceable units (CRUs), the Lenovo ThinkPad L13 2-in-1 Gen 6 is engineered to last. Customers can do many replacements, repairs, and upgrades themselves, including the battery, speaker, SSD, and fan. Ultimately, this notable serviceability lowers downtime and enhances lifecycle—and a longer device life contributes to a circular economy. Lenovo's sustainability focus doesn't stop there. With an increased use of PCC recycled plastic material, plastic-free primary packaging, and enhanced certifications, this smart multimode is smarter for the planet as well.

Lenovo Sustainability Services

Partner with Lenovo to implement more sustainable, cost-efficient practices across the device lifecycle and make a meaningful difference in how you use technology.

LENOVO TRUSCALE DEVICE AS A SERVICE

This subscription model is an efficient way to manage your fleet of end-user devices, optimizing resources and costs while promoting circularity. Deploy just what you need and responsibly dispose of what you don't. Supported by our suite of services, TruScale DaaS helps you prolong device usability and create a more sustainable end-to-end journey for your IT assets.

LENOVO CO₂ OFFSET SERVICES

While minimizing and eliminating emissions is always the goal, carbon offsetting your IT fleet is another way to help manage your overall carbon footprint. We make it easy with a seamless, transparent process for Lenovo devices across your current IT fleet or new purchases—with a sustainability dashboard to view the offset metrics. The offsets are contributed to climate action projects verified by independent third-party organizations like the United Nations, CDM, Gold Standard®, and Climate Action Reserve.

LENOVO ASSET RECOVERY SERVICES

Hardware-agnostic Lenovo Asset Recovery Services (ARS) help mitigate end-of-life IT and data security risks. We reuse parts, refurbish devices, and recycle assets. Buy-backs help you fund future IT investments. And Lenovo PCs and infrastructure hardware can get a new lease on life through Lenovo Recertified Services.

Lenovo ThinkPad L13 2-in-1 Gen 6

Committed to sustainability

At Lenovo, we're focused on providing smarter technology that builds a brighter, more sustainable future for our customers, colleagues, communities, and the planet. We're determined to build a smarter future for all through the products and services we offer.

As we continue innovating to provide technology solutions that are more energy efficient and human-centered like the Lenovo ThinkPad L13 Gen 6, we stay focused on empowering you to meet your own sustainability goals—and solve humanity's greatest challenges.
