

Lenovo ThinkPad

The competitive edge belongs to those who move smartest. The Lenovo ThinkPad E16 Gen 3 *i*, fueled by the Intel® Core™ Ultra 7 processor (Series 2) powering Intel vPro®, is a next-generation AI PC that fundamentally eliminates the burden of busywork. For finance, data and creative professionals, having the secure, on-device intelligent assistance of this savvy laptop means tackling every workday with less friction. Harnessing the up to 48 TOPS of NPU intelligence and enhanced Copilot+ PC features, users gain an unparalleled ability to rapidly synthesize massive research documents, generate fresh marketing content instantly and streamline complex workflows, protecting focus and enabling faster, more intelligent decision-making—all at exceptional value.

Beyond its steadfast efficiency, this durable 16" mobile workhorse elevates every aspect of the user experience. The Intel® Arc™ graphics provide crisp, smooth visuals, while the rich Audio by Harman, FHD camera and AI-accelerated meeting features create naturally immersive collaboration. The refined UX features a comfortable keyboard with industry-leading accessibility features, a large, smooth TouchPad and impressive repairability with customer replaceable units. Thinner and lighter than ever, the Lenovo ThinkPad E16 Gen 3 *i* also boasts improved security and sustainability, giving the modern hybrid workforce the confidence to conquer what's next.

Lenovo

Lenovo ThinkPad E16 Gen 3 *i*

SMART PRODUCTIVITY

Fueled by the Intel® Core™ Ultra 7 processor (Series 2), the Lenovo ThinkPad E16 Gen 3 *i* with up to 118 TOPS enables premium AI capability that powers next-gen use cases and AI workloads to help keep business running smoothly. The Copilot+ PC features amplify everyday efficiency with business-ready AI for real-world benefits, including the latest innovations in on-device and cloud intelligence to enhance communication, increase productivity and boost creativity. Lenovo AI Now delivers local AI assistance with device settings and troubleshooting, help with knowledge search for content summary and creation, and meeting assistance to elevate collaboration. Intense tasks are no problem with ample storage and memory, plus the impressive thermal design power (TDP) improves overall power-efficiency.

INTUITIVE UX

For efficiency that's engineered for comfort, the Lenovo ThinkPad E16 Gen 3 *i* takes the friction out of high performance, pairing a flat-panel 1.61kg¹ design with an intuitive user experience. Users can navigate every work task with ease, thanks to the comfortable keyboard, large 115x67mm TouchPad and new dedicated F8 key for instant thermal mode changes to adapt performance to workload. The high-resolution WQXGA 16:10 120Hz display provides a smooth, responsive and brilliant view while actively reducing eye fatigue with eye care mode and TÜV Eyesafe® certification. The AI-driven meeting features of this Copilot+ PC, along with the crystal-clear FHD IR camera plus distortion-free Audio by Harman and Dolby Atmos sound, make online collaboration feel a lot less virtual. The inspiring experience is boosted by the reliable 64Wh battery for all-day power, a full array of I/O ports and robust 32GB LPDDR5x memory to easily handle every task, wherever work is done.

SECURE, RESPONSIBLE DESIGN

Safeguard your on-the-go productivity with enterprise-grade features like dTPM 2.0 for data encryption, biometric login and self-healing BIOS, along with next-gen Copilot+ PC security including Secured-core PC protection and Microsoft Pluton. The Intel® Core™ Ultra 7 processor (Series 2) and Intel vPro® provide a secure foundation for modern computing and AI through a collection of technologies that start at the hardware level and continue through the entire compute stack, including remote management tools for smarter and safer PC fleets. You'll also appreciate the responsible design of the Lenovo ThinkPad E16 Gen 3 *i*, with its improved repairability to reduce the load on IT teams and minimize downtime, along with more recycled materials and improved certifications for enhanced sustainability.

Lenovo Solutions & Services

Partner with Lenovo to implement more sustainable, cost-efficient practices across the device lifecycle and make a meaningful difference in how you use technology.

LENOVO TRUSCALE DEVICE AS A SERVICE

Deploy the IT resources you need and responsibly dispose of those you don't. Supported by our suite of services, TruScale DaaS helps you prolong device usability and promote circularity for your IT assets.

LENOVO CO₂ OFFSET SERVICES

Make carbon offsetting easy with a seamless, transparent process for Lenovo devices across your current IT fleet or new purchases—with a sustainability dashboard to view the offset metrics.

LENOVO PREMIER SUPPORT PLUS

Reduce downtime and increase productivity with direct access to advanced technicians who provide better, faster solutions that work every time—anytime, anywhere.

Lenovo ThinkPad E16 Gen 3 i

Committed to sustainability

At Lenovo, we're focused on providing smarter technology that builds a brighter, more sustainable future for our customers, colleagues, communities and the planet. We're determined to build a smarter future for all through the products and services we offer. And we partner with Intel, the industry leader in sustainable semiconductor manufacturing.

As we continue innovating to provide technology solutions that are more energy efficient and human-centered like the Lenovo ThinkPad E16 Gen 3 i, we stay focused on empowering you to meet your own sustainability goals—and solve humanity's greatest challenges.
