Lenovo ThinkBook 14x

Focused on business users, students and recent grads for whom budget matters, the brand new ThinkBook 14x delivers flexible productivity and impressive UX in a thin-and-light revolutionary design. Fueled by up to Intel® Core™ Ultra 7 processors with integrated Intel® Arc™ Graphics, this mainstream mobility masterpiece enables premium AI capabilities for next-gen use cases and workload to help keep business running smoothly. Beyond flashy aesthetics that fall short on performance, the ThinkBook 14x is engineered for no-lag multitasking, long-term versatility and rich connectivity.

With an expansive 14" 2.8K¹ vivid display, full-day battery life and on-device intelligence, this ThinkBook starts at under 990g and just 12.9mm thin. The robust I/O ports let you flex your workspace—no dongles needed—while up to 32GB memory and 1TB storage with dual storage slots set the stage for your what's next. Plus, strong business readiness within the Windows ecosystem ensures seamless integration with the hardware and software integral to your everyday work and learning, creating long-term adaptability and value. For AI-driven productivity, immersive collaboration and cool performance that's secure by design, the ThinkBook 14x is your modern edge.

PCs with Intel Inside®

¹ Optional

Lenovo ThinkBook 14x

PRODUCTIVITY WITHOUT LIMITS

The results-driven ThinkBook 14x is powered by up to the high-efficiency Intel® Core™ Ultra 7 processor, delivering next-gen AI experiences and leveraging multi-core performance and expanded memory capacity (up to 32GB) to support seamless multitasking and more intensive workflows. The built-in AI-ready hardware, Microsoft's AI ecosystem and Copilot+ PC features combine to enable faster, more intuitive everyday tasks like writing, search and multitasking, while Lenovo AI tools enhance real-world uses by improving meeting quality, optimizing system performance and simplifying device management. Unlocking more personalized and intelligent user experiences over time, Lenovo Qira¹ provides contextual built-in AI across devices for secure efficiency that aligns with how you think and work. For hardware-connected cross-device workflows, Smart Connect integrates your digital environment to seamlessly tackle every task. Carefully engineered to optimize power and minimize noise when working, learning or multitasking on the go, the smart thermal design and strategic single-fan system ensure cool, responsive performance—even during extended use.

EXCEPTIONAL EXPERIENCES, ELEVATED AT EVERY TOUCHPOINT

Whether you're working, learning or playing, you never compromise—so why should your laptop? With an ultra-thin and lightweight design available in special-edition colors, combined with a larger CRUable 65Wh battery for true all-day mobility, the ThinkBook 14x elevates real-life usability. The 14" OLED display² with 120Hz refresh rate and vivid 500nits brightness provides an immersive, comfortable viewing experience for meeting, training or streaming. From the first keystroke to the final swipe, this ThinkBook is designed to feel intuitive, comfortable and responsive. A backlit premium keyboard with satisfying key feel and a wider glass TouchPad further refines the UX, while Wi Fi 7 enables fast, stable connectivity for everywhere productivity. And forget about juggling adaptors or seeking the next power outlet, thanks to the full array of built-in ports (2x USB-C, 2x USB-A and 1x HDMI) and full-day battery life. Beyond hardware, value-added software and AI-optimized tools enhance meetings, simplify upkeep and support cross-device workflows for smarter get-it-done.

PROTECTED, PROVEN & READY FOR THE LONG RUN

Secure, durable and business-ready for the real world, the ThinkBook 14x is built for those who expect more than style while demanding long-term value. From the efficient 25W Thermal Design Power and energy-efficient fan design to the MIL-STD-810H toughness, operational costs go down and device life extends—and more uptime means more go-time. Advanced biometric security ensures fast, secure access and protects your data and privacy. Plus, Windows 11 Pro provides a strong foundation for business environments with better manageability and security controls. Sustainability is built into the product, packaging and efficiency story as well. Use of recycled materials and responsible packaging helps reduce environmental impact from production to delivery, and recognized certifications support institutional and enterprise goals.

¹Coming soon via OTA in late 2026; Lenovo Qira never collects data without user permission.

Lenovo Solutions & Services

Lenovo Solutions & Services were designed from the ground up to deliver smarter solutions that create better outcomes for your business.

LENOVO TRUSCALE DEVICE AS A SERVICE

TruScale DaaS is a convenient, predictable subscription model with a range of end-to-end services that help you avoid overprovisioning, reduce TCO, and promote circularity.

LENOVO CO₂ OFFSET SERVICES

Manage your technology carbon footprint, make tangible contributions to the environment, and support verified climate action projects with easy-to-purchase offsets. Lenovo CO₂ Offset Services estimates the carbon emissions across the device lifecycle through a seamless, transparent process.

LENOVO PREMIER SUPPORT PLUS

Elevate the SMB employee IT support experience to enterprise grade with the latest ThinkBook devices alongside Premier Support Plus. AI-powered insights help you do more and waste less. Premier Support Plus delivers seamless advanced support from anywhere with smarter proactive and preventive services. It's the ideal solution for your workforce in the office, remote, or hybrid to promote productivity, reduce downtime, and create a positive employee experience.

Lenovo ThinkBook 14x

Committed to sustainability

At Lenovo, we're focused on providing smarter technology that builds a brighter, more sustainable future for our customers, colleagues, communities, and the planet. We're determined to build a smarter future for all through the products and services we offer. And we partner with Intel, the industry leader in sustainable semiconductor manufacturing.

As we continue innovating to provide technology solutions that are more energy efficient and human centered like the Lenovo ThinkBook 14x, we stay focused on empowering you to meet your own sustainability goals—and solve humanity's greatest challenges.
